

Young Scholars Network activity report for 2006:

1. YECREA website has been set up parallel to the Doctoral Summer school website.
2. YSN through its head of board Pille Pruulmann-Vengerfeldt, organized European Doctoral Summer School involving ECREA in many different phases
3. YSN organized workshop at the European Doctoral Summer School collecting valuable information and feedback from participating students.
4. Information has been used in setting up and planning the young scholars website.
5. Plans have been made but not realized for attracting more members.
6. During the Summer School, book was published that has been distributed to the institutional members of ECREA and is freely available at the summer school website. <http://young.meso.ee/?q=node/54>
7. Nico Carpentier has helped us through distributing the information about the book through many different channels, as a result, this altogether 145 people have shown interest in YECREA activities through registering at the website. Many new membership application forms have been sent out.
8. Core group of the YSN has been busy finishing up their theses.

Goals for the next year:

1. Activate and reactivate existing members
2. Recruit more members especially from among ECREA
3. Join ECREA and YSN databases
